

Project Puffin internship for Cornell undergraduates offered in cooperation with the [Audubon Society](#) and Cornell's [Laboratory of Ornithology](#)

DATES: May 19 - August 16, 2012

APPLICATION DEADLINE: March 15, 2012

ELIGIBILITY: **Must be a Cornell undergraduate student.**

DESCRIPTION: An internship offered as part of National Audubon Society's Seabird Restoration Program. Work includes, but is not limited to: seabird diet studies, productivity monitoring, chick growth, seabird survival, telemetry and vegetation and predator management studies.

INTERNSHIP DETAILS: Positions require primitive camping and working on offshore islands. Day are long, and require a minimum of two, 3-hour observation stints each day in a small, wooden blind, weather permitting. All participants camp in the bird colonies (no electricity or running water; composting toilet only). Food and worker's comp are provided.

STIPEND: \$255/week
