in marine science since 1966

MARINE ENVIRONMENTAL SCIENCE

JULY 27 - AUGUST 10, 2009

BIOSM 1110: 4 college credits

PREREQUISITES: Open to HIGH SCHOOL rising juniors and seniors who have successfully completed two high school science courses.

(Questions? For help contact Robin Hadlock Seeley at: 607.255.3717)

FACULTY:

Mark Johnson, Ithaca High School Science Dept., NY

COURSE DESCRIPTION: (also see: http://www.sml.cornell.edu/sml_cc_mes.html)

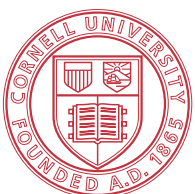

Provides high school students with a UNIQUE opportunity to experience the marine environment: observe seabird behavior; cruise offshore in search of humpback whales; learn about fishes to fisheries, seaweeds to lobsters. Each student will have the opportunity to be involved in group research projects.
